

Grove Road Primary School

Tuesday 23rd January 2018

Dear Parents and Carers,

Year 1 would like to invite you to a D&T afternoon on Thursday 8th February.

Throughout this half term Year 1 have been learning all about inventors and explorers. The children have been looking closely at what makes a good inventor and have been coming up with their own designs and ideas.

Due to the success and creativity of the children, Year 1 would like to share their expertise on design and inventing with you.

The project that we have in mind, is linked closely to our English curriculum planning. As you know the children have been learning about dragons and what could be better than creating, designing and making your very own dragon!

There are a few things that we ask. Please bring in as much junk modelling equipment as you feel will be necessary. As well as any items that you would like to decorate your dragon with. Although this is not a competition there may be small prizes for the most creative and well-designed dragons.

Please be ready to start designing and building by 1:30pm

We would love you to come and join us! Please let us know on the reply slip below by **Friday 2nd February** if you are able to visit our D&T afternoon on the above date.

We look forward to see you there!

Everyone in Year One

Please indicate below if you can attend and how many people you will be bringing (maximum two per child).

Name of child: _____

Number of adults attending: _____
