

Grove Road Primary School

Tuesday 28th November 2017

Dear Parents and Carers,

Year 2 would like to invite you to a D&T afternoon on Thursday 14th December.

Throughout this term Year 2 have been learning all about London. The children have been looking closely at maps and different landmarks in London. We are going to be sketching the different landmarks and then the children are going to plan how they would make their chosen landmark out of junk materials.

Year 2 would like to share their expertise on London and junk modelling with you. The project that we have in mind is linked closely to our curriculum where the children will be planning, designing and making a London landmark!

The children will have an opportunity to plan which landmark they would like to make in class before the afternoon. We would like to invite you to then come in and help the children create their landmark out of junk on **Thursday 14th December**. Please bring in as much junk modelling equipment as you feel will be necessary, as well as any items that you would like to decorate your landmark with. Please be ready, in school, to start designing and building by 1:30pm.

We would love you to come and share this opportunity with your child! Please let us know on the reply slip below by **Friday 8th December** if you are able to visit our D&T afternoon on the above date.

We look forward to see you there!

The Year 2 Team.

Please indicate below if you can/cannot attend and how many people you will be bringing (maximum one per child).

Name of child: _____

I can/cannot attend the D&T afternoon.

Signature : _____
