

Celebrating World Book Day at Grove Road Primary School

On Thursday 2nd March, children of Grove Road Primary School celebrated World Book Day by dressing up as their favourite book characters and bringing their favourite books in to school. Some children dressed in pyjamas in keeping with the 'bedtime story' theme, and parents came in during the week to share their favourite bedtime stories with the children.

The children's favourite books have been on display all week and they have written their own book reviews.

Katie Carter, Year 3 teacher and leader of the Curriculum Enrichment Programme at Grove Road, comments:

"Engendering a love of books in young children is so important. The more children read, the more they expand their vocabulary, and this enhances their spoken and written language skills. Reading opens up new worlds and enriches children's lives."
